## SPECIFICATIONS

---

Model 5703M is a polished chrome-plated brass bubbler head with shielded sanitary nozzle design, mounting hardware, and a 3/8" compression inlet with 100% lead-free waterways.

## APPLICATIONS

---

Easily adapted to many situations involving the use of drinking water, this type of bubbler head is used as a replacement head for many Haws fountains, and may be placed in such settings as: schools, campgrounds, laboratories, classrooms, parks, and other areas where the need for a bubbler head is needed to dispense water. Haws manufactures drinking fountains and electric water coolers to be lead-free by all known definitions including NSF/ANSI Standard 61, Section 9, NSF/ANSI 372, California Proposition 65, and the Federal Safe Drinking Water Act.
