SPECIFICATIONS

Model 5830LF is a polished chrome-plated lead-free brass bubbler valve which incorporates self-closing lever handle operation and uses a screwdriver adjustment stream control. It is supplied with a 1/2" NPT inlet and 1/4" NPT outlet.

APPLICATIONS

Easily adapted to many situations involving the use of drinking water. Specifically, this type of bubbler valve is used as a replacement valve for some Haws products, or may be placed in such settings as: schools, campgrounds, laboratories, classrooms, parks, and other areas where the need for a bubbler valve is needed to dispense water. Haws manufactures drinking fountains and electric water coolers to be lead-free by all known definitions including NSF/ANSI Standard 61, Section 9, NSF/ANSI 372, California Proposition 65, and the Federal Safe Drinking Water Act.
