Bottle Filler Valve

FEATURES & BENEFITS

DESIGN

With its special push-button design which allows for front access stream adjustment as well as cartridge and strainer access, this valve offers the ultimate in ease of maintenance.

OPTIONS

- Valve Repair Kit: Model VRK5874HF, valve repair kit for Model 5874HF.

For more information, visit www.hawsc.com or call (888) 640-4297.

SPECIFICATIONS

Model 5874HF high flow fountain valve is a stainless steel push button valve with front stream adjustment and cartridge servicing. It uses automatic pressure regulation from 30 - 90 psi (2.1 - 6.2 bar) and has a 1/4" NPT inlet and outlet. Used with 1920 series bottle filler stations.

APPLICATIONS

Specifically, this valve is a replacement valve for Haws fountains and bottle fillers produced after October of 2003 that use a high flow system. Haws® manufactures drinking fountains and electric water coolers to be lead-free by all known definitions including NSF/ANSI Standard 61, Section 9, NSF/ANSI 372, California Proposition 65, and the Federal Safe Drinking Water Act.
