

model EU-3300

Barrier-Free Steel Pedestal Fountain

FEATURES & BENEFITS

CONSTRUCTION

Barrier-free design made of heavy-duty 11 gauge galvanized steel with green powder-coat finish. Unit has a high-polished stainless steel basin that resists stains and corrosion, recessed push-button, welded bubbler guard, and vandal-resistant bottom plate.

DRAIN CLEAN-OUT

Top-down access to the drain allows the fountain portion to be cleaned without taking the unit apart, good for outdoor settings with drain-clogging sediment such as leaves, garbage, and other debris.

BARRIER-FREE

Barrier-free capabilities combined with its ease of use allows for a number of installation location possibilities.

PUSH BUTTON VALVE

The push-button activated valve offers the 'only' all stainless steel valve body that is machined out of solid bar stock, is fully serviceable through the front of the push button assembly offering access to the water control cartridge and integral water supply strainer, and with front access to the water stream height adjustment for easy maintenance without having to remove the valve. Operating pressure range of 30 to 90 psi (2.1 to 6.2 bar).

OPTIONS

- ☐ Sand Trap: Model 6611, sand trap for installing adjacent to pedestal drinking fountains to help prevent debris and contaminants from clogging waste line.
- ☐ Faucet Valve: Model 6250LF, self-closing, plain end, lead-free, brass bib faucet with polished chrome-plated finish. (When used with Haws concrete products, also order part 0004499489; for 3511, use 0004521763)
- ☐ Valve Repair Kit: Model VRK5874, valve repair kit for Model 5874.
