

## FEATURES & BENEFITS

### CONSTRUCTION

FDA approved high-density green polyethylene tank provides the light and durable construction required in a portable unit.

### MOUNTING

J-shaped stainless steel wall bracket makes for a well constructed portable mount for easy removal and re-mount.

### EYEWASH

Pulling down the eyewash arm will begin flushing the 16 gallon (60.6 l) portable at .4 gpm (1.5 l) during the required 15 minutes, creating a full patterned flushing of the eyes.

### DESIGN

Tank comes complete with a wide-fill opening and threaded cap for quick inspection, cleaning, and filling. Unit also comes equipped with top and side handles making relocation easy.

## OPTIONS

- Waste Container: Model 9009 is a twenty-gallon (75.7 L) wastewater container constructed of tough yellow polymer resin. Unit is used to collect water during weekly testing of emergency equipment. Order Item Number 1000 5211.
- Thermal Protection Jacket: Model 9125 is a white thermal protection jacket for 7500 series gravity eyewashes. Order Item Number 1000 5243.
- HawsCLEAN™ Portable Eyewash Cleansing Stick: Model 9083, HawsCLEAN cleansing stick for gravity fed and pressurized portable eyewash equipment. Order Item Number 1000 8912.
- Water Additive: Model 9082, bacteriostatic preservative for use in portable eyewash stations. One 8 oz. (236 ml) bottle will preserve 5 to 20 gallons (18.9 to 75.7 L) of potable water for up to four months. Four bottles per carton. Order Item Number 1000 0208.

## SPECIFICATIONS

Model 7500 (item number 1000 4492) portable gravity operated eyewash shall include a FDA approved high-density green polyethylene 16 gallon (60.6 L) tank, ABS plastic eyewash heads with .4 gpm (1.5 L) flow rate over 15 minutes, yellow pull-down activation arm, integral handles on top and sides, wide-fill threaded cap, label-mounted operation and maintenance instructions, and a stainless steel wall bracket. Additive not included – Order separately.

## APPLICATIONS

Where the eyes of any person may be exposed to injurious or corrosive materials, when suitable facilities for quick flushing of the eyes needs to be provided and a continuous supply of water is not available. Although the 7500 may be installed in a wide variety of locations, it is ideal for the remote and low traffic areas where protective measures are still needed. Emergency eyewash facilities shall be in unobstructed and accessible locations.

Model 7500 is certified by CSA to meet the ANSI/ISEA Z358.1 Standard for Emergency Eyewash Equipment.
